Dashboard

Overview of interview practice and quick access to a new session.

UI COMPONENTS & PURPOSE

- **Navigation sidebar:** Access Dashboard, New Interview, Analysis, Reports, Practice Plan, History and Settings.
- **Start New Interview:** Launches the main interview preparation workflow.
- **Statistics and recent sessions:** Displays scores, completed sessions and past interview reports.
- **Progress and recommendations:** Shows score trends and suggested next practice actions.

Concept UI sketch • Illustrative sample data • For team discussion, not a functioning application

JD & CV Analysis

Compare an uploaded CV with a job description before creating a mock interview.

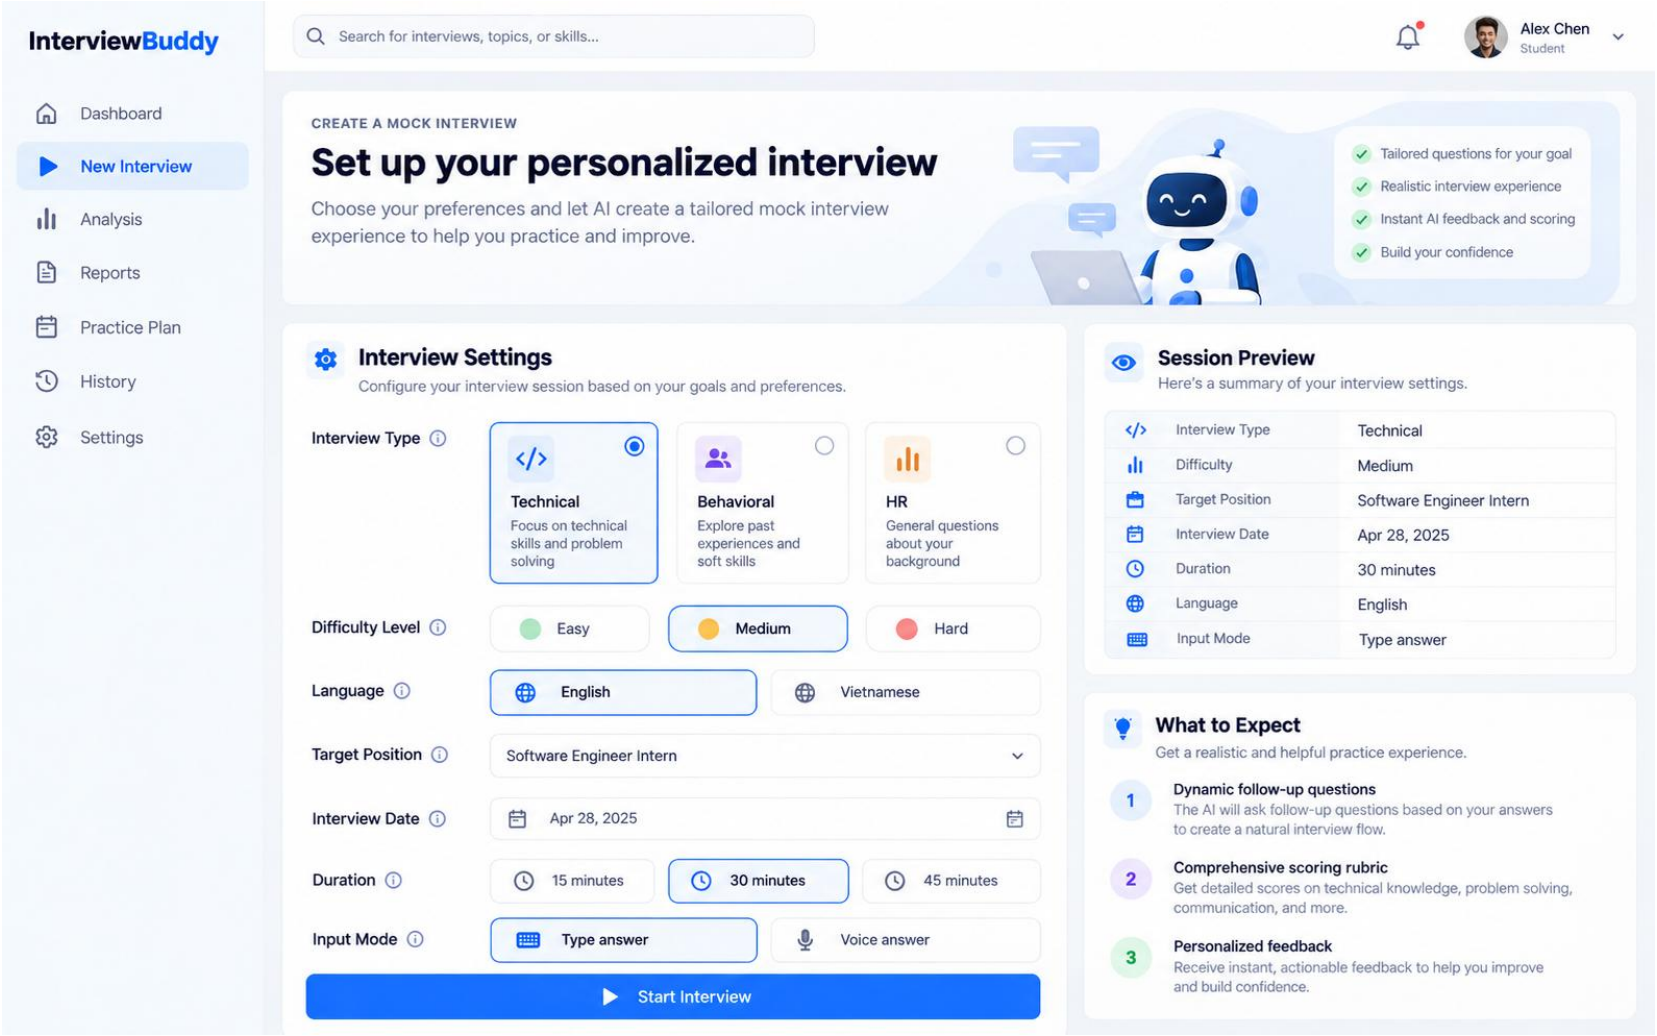

UI COMPONENTS & PURPOSE

- **Job Description:** Allows the user to paste role responsibilities and skill requirements.
- **CV / Resume:** Supports a CV upload or pasted CV text.
- **Analyze Match:** Runs the CV-to-JD comparison.
- **Analysis Results:** Displays match score, matched skills, gaps and tailored recommendations.
